COMPANY PROFILE

Ashmead Ali Contracting Services Limited was incorporated on 2nd August, 2006. Its Directors are Ashmead Jamil Ali and Nadeira Yasmin Khan. The company has and continues to be involved in all major projects throughout the twin island Republic of Trinidad and Tobago.

The company is one of the major Barging Contractors that supplies aggregates to Tobago and through importation when there is a local shortfall. It is also one of National Quarries largest purchaser of aggregates.

Ashmead Ali Contracting Services Ltd. owns and operates heavy equipment. These include excavators, tractors, rollers, trucks and over-loaders.

In addition to supplying aggregates and all quarry materials, our other services include:

- Equipment rental
- Road and, box drains construction
- Road paving
- Clearing and reclamation of land
- Earthworks and Foundations
- Bridge repairs
- Suppliers of hot mix and readymix concrete
- General construction of houses and commercial buildings.

On a daily basis, we have 40 -50 Dump delivering aggregates to various companies to meet their requirements.

Some of the major projects where we have contributed to date are:

- Tobago Plantations Golf Course
- Atlantic LNG
- Seawall Protection Clifton Hill
- Highway extension from Tarouba to Golconda, Golconda to Point Fortin
- Labico Port Development
- A range of housing project development - Picton, Couva, Rio Claro
- Landslides in Rio Claro
- Alutrint Smelter Development Site
